CAREER OBJECTIVE

To secure a Web Development or IT internship where I can apply my foundational programming and web development skills, contribute to real-world projects, learn from experienced professionals, and continue growing as a developer.

PROFESSIONAL SUMMARY

BCA student at Sahyog College, expected to graduate in 2027, with hands-on practice building web projects using HTML, CSS and JavaScript. Currently learning React and developing a portfolio of interactive projects. Seeking a Web Development or IT internship in Thane/Mumbai to contribute, learn from experienced developers and strengthen practical skills.

TECHNICAL SKILLS

Web: HTML, CSS, JavaScript

Programming: C, C++

Framework: React (currently learning)

Tools & Office: GitHub, MS Excel, MS Word, MS PowerPoint

Professional: Communication

PROJECTS

Quiz Pro — Built an interactive quiz website with HTML, CSS and JavaScript, featuring topic-based questions, a timer and a final score screen.

Personal Portfolio Website — Created a portfolio website to present personal information, technical skills and web projects, with an animated interface.

Shopping Website — Developing a shopping website interface with product categories and shopping-focused pages using React/Vite. Include only features that are completed and working.

Weather Application — Built a weather application project. Add the exact technologies and API/features used before sending if applicable.

EDUCATION

Bachelor of Computer Applications (BCA): Sahyog College | Third Year, Semester 5 | Expected graduation: 2027
